# Designing packaging solutions customized to your needs and aligned with market trends

Our packaging, your success

## OUR EXPERTISE

VISIODUNE PACKAGING features a 500m bicomponent sleeve, supplied as a reel.

The unique design of our VISIODUNE packaging, featuring a full-width window, significantly enhances the visibility of products and showcases their quality, texture, and distinctive characteristics.

The traditional kraft color of VISIODUNE paper offers a sustainable alternative to plastic while providing a handcrafted aesthetic. The packaging is designed and developed in France.

DUNE since 1992

200 million French bread packaged every year!

Up to 97%\* less plastic

1000 machines installed

## Our mission?

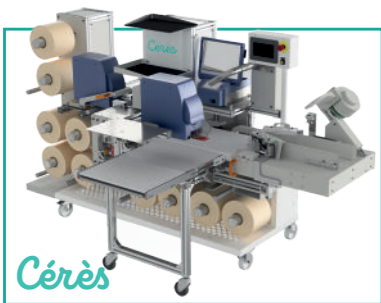

At DUNE, we rethink packaging to meet the challenges of the food industry. Delivering innovative and eco-friendly solutions that integrate simplicity, product visibility and a substantial reduction in plastic.

YOUR KNOW-HOW

YOUR ENHANCED PRODUCTS

Discover our machines in action

DUNE offers semi-automatic and automatic packaging solutions for your products, available in standard or custom versions.

\*Reduction calculated compared to a 100% plastic packaging with equivalent packaging capacity. This estimate applies to our range of packaging (paper/polypropylene/carton trays).

### A team at your service

- ✓ Assessment of your needs
- ✓ Product analysis
- ✓ Sales journey review

### End-to-end customer service, from A to Z

- ✓ Technical setup
