

VISIODUNE®

L'emballage innovant

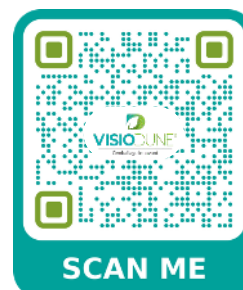

DUNE®
Packaging process

The specific design of our **VISIODUNE** packaging with a full-width window enhances the visibility of products and highlights their quality, texture and characteristics.

This unique **DUNE** innovation is adjusted to our machines for an automatic packing process that protect and preserve your product whether it is in a tray or not.

SCAN ME

MATERIAL

Our brand **VISIODUNE** is available in three distinct ranges:

- **VISIODUNE^{Essentiel}** a paper back combined with a transparent polypropylene front, offering both an artisanal look and clear product visibility.
- **VISIODUNE^{Nature}** a regenerated cellulose front combined with a paper back.
- **VISIODUNE^{Protect+}** a solution combining a functionalized paper back with a polypropylene front, designed for applications requiring enhanced grease resistance.

PERSONALIZATION

- Printing in **different colors** is possible on each side of the packaging.
- **Logos, barcodes** or any specific message.
- Available in **11 colours**.

FORMAT

A **wide range** of sizes to fit most of your products.

SEALING

- One side open
- Sealed on both sides
- Closed by label
